

GIFT OF  
Author

WILLIAM WRIGHT, MAYOR

Twenty-Third Annual Report  
OF THE  
City of Rochester  
NEW HAMPSHIRE

For the Year Ending December 31st  
Nineteen Hundred and Fourteen

11  
35407  
RG  
124

# Inaugural Address

By Mayor William Wright.

---

Gentlemen of the Council:—

My address to you at this time will of necessity be brief, as the needs and wants of our city are not well enough known by me to warrant my taking your time by talking on subjects in which you at this time have a better insight than I. But the hour and the occasion demand something from me at least in a general way; and in the future, if needs arise, I may address you more to the point of some definite object.

## FINANCE.

In making the appropriations for the coming year you must ever keep in mind that the people demand of us economy and still in the same breath call for those things in municipal improvements that are commensurate with a city of far larger resources. Right here I wish to recall to your remembrance that in the last six years from 1909 the appropriations have steadily increased from \$98,405 in 1909 to \$115,781 last year, an increase of \$17,376. I present a summary of the financial condition of the city as gained from the records.

## FINANCIAL STATEMENT, JAN. 1, 1915.

Notes outstanding,	\$187,720.42
Accrued interest on notes to date,	3,679.38

Sewer bonds,	\$13,000.00
Interest on sewer bonds,	227.50
City Hall bonds,	53,000.00
Checks out unpaid,	1,967.92
Amount due water works on account,	7, 300.66
	<hr/>
	\$266,895.88

## Credit.

Boston and Maine R. R. stock,	\$ 800.00
Amount due on sundry accounts,	283.10
Amount due on Collector's list, 1911,	136.74
Amount due on Collector's list, 1912,	517.81
Amount due on Collector's list, 1913,	530.01
Amount due on Collector's list, 1914,	28,913.40
Cash in hands of Treasurer,	6,606.19
	<hr/>
	\$37,787.25
Net indebtedness, exclusive of water bonds,	\$229,108.63
Water bonds outstanding,	\$160,000.00

## POLICE.

In the revision of the city ordinances quite an added duty has been placed on our police, especially in regard to the traffic laws on our streets; and this, taken with what is expected of them on the question which was so decidedly determined in the last November election, ought to cause us to consider if we are not expecting too much of the small regular force that we have at our command to have any of it done to our satisfaction.

## FIRE DEPARTMENT.

Our fire department is a volunteer body, and the services which they have rendered are not to be

reckoned in current coin. Anything which will work to pull down the spirit of the organization should be avoided at all hazards.

At this point consideration should be given for proper protection to that part of the city containing the large mills and factories which I am informed is almost defenseless against fire, for these establishments are the support of about one-third of our population.

## SCHOOLS.

The schools of our city to be an honor and a credit to the memory of that man, to whom they were his life work and who did so much for them in the past when the obstacles were so great, the late Henry Kimball, Esq., should not be content to be in the main body but in the fore of educational progress.

It will be a step in that direction when we can see our way to have, in the no distant future, a man as principal in each of the large buildings; as I believe it is well for the children to come under the instruction of men as well as of women in the lower grades since so many children leave at the completion of what is known as the Grammar grade, as well as for the benefit conferred upon those who enter the High School.

To my mind, the greatest drawback our schools are encountering is the inability to retain the teacher who shows his aptitude for the work, as other places offer better salaries than the School Board can give.

## HIGHWAYS.

The needs of the highways and roads I am not in a position to discuss, but it is well to keep in mind that the prosperity of a community is judged by the

condition of its roads, and the money expended thereon should be done in a systematic and equitable manner as to all parts of the city.

One thing that has been called to my attention is the lack of guide-boards along our highways for the convenience of the travelling public, and I trust the proper department will attend to this matter.

---

Gentlemen:—

We are here to act together as one body to govern and administer all the fiscal, prudential and municipal affairs of our city. The majority of you are men of experience in these affairs as the framers of our charter have provided, and those of us who are new to the situation ask your patience and forbearance until we are at least familiar with our duties.

In the furtherance of our work there will arise differences as we severally see it as to the proper mode or manner of bringing something about, and because of these honest differences the best will come to light, and the city will be the gainer thereby.

In such a body as we are, where the several members each have the greatest welfare of the community at heart, there needs never be fear on the part of any but that all the interests of the city will be considered and fractional concerns will be given only their due value.

I feel and believe that this working in concert will be a pleasure to us all for the coming year.

# City Government

As Organized January 6, 1915.

## Important Resolutions and Orders

Passed by the City Council

---

### ANNUAL APPROPRIATION.

Resolved by the City Council of the City of Rochester:

That for the support of the various departments for the year 1915, there be raised by taxation the sum of one hundred fifteen thousand, five hundred and sixty-one dollars and thirteen cents (\$115,561.13) and the assessors are directed to assess that amount with such overlay as may be thought necessary.

Passed January 19, 1915.

### TO TRANSFER FROM PRECINCT FUND TO GENERAL FUND FOR STREET SPRINKLING.

Resolved by the Mayor and City Council of the City of Rochester:

That the sum of \$813.67 be transferred from the balance on hand to the credit of the street sprinkling precinct to the credit of the regular appropriation from the general fund for street sprinkling, to balance accounts between the general appropriation for street sprinkling on the part of the city and the special appropriation for the same purpose on account of the precinct, occasioned by an over-appropriation of this amount in the regular appropriation by the city in 1912.

Passed January 7, 1914.

## REQUESTING STREET LIGHT ON STONE BRIDGE

Resolved by the Mayor and City Council of the City of Rochester:

That the Committee on Street Lights request the Twin State Gas and Electric Company to furnish an electric light, free of charge, during the winter months, to be located at or near the stone bridge, for the benefit of those who skate on the river.

Passed January 7, 1914.

## TO HIRE MONEY TO REFUND NOTES.

Resolved by the City Council of the City of Rochester:

That the Mayor, City Treasurer and City Clerk be authorized to hire on note or notes of the city, an amount not exceeding fifty thousand dollars, for the purpose of refunding notes now outstanding against said city as called for.

Passed January 21, 1914.

## HIRING IN ANTICIPATION OF TAXES.

Resolved by the Mayor and City Council of the City of Rochester:

That the Finance Committee be authorized to raise on note or notes of the city, a sum of money not exceeding fifteen thousand dollars (\$15,000) in anticipation of taxes, providing it is necessary to do so.

Passed January 21, 1914.

## PERTAINING TO PUBLIC WEIGHERS.

Resolved by the City Council of the City of Rochester:

That Chapter 33 of the Laws of New Hampshire, passed January session, 1901, relating to public weighers,

be hereby adopted excepting section 3 of the same which is hereby suspended, and the maximum fees prescribed by law be the compensation paid for said services.

Passed January 21, 1914.

# TO RAISE MONEY BY TAXATION IN SPRINKLING PRECINCT.

Resolved by the City Council of the City of Rochester:

That the sum of eighteen hundred dollars (\$1,800.00) be raised by taxation within the sprinkling precinct in accordance with the act of the Legislature creating said precinct, and the assessors are directed to assess that amount.

Passed January 21, 1914.

# PRINTING CITY REPORTS.

Resolved by the Mayor and City Council of the City of Rochester:

That the City Clerk be instructed to prepare for the printer all matter that is to go into the city reports, and that the Committee on Printing be instructed to solicit bids for printing city reports and that they be let to the lowest responsible bidder.

Passed January 21, 1914.

# PAY OF FIREMEN.

Be it ordained by the City Council of the City of Rochester as follows:

Section 1. Amend section 19 of Chapter VIII of the Ordinances as amended July 7, 1908, by striking out

after the figure 6 in the fifth line the word "forty" and substituting therefor the word "fifty" so that said section as amended shall read as follows:

Section 19. The annual pay of the members of the department, except the board of engineers, shall be as follows: The members of companies 1, 2, 5 and 6, fifty dollars each; of companies 3 and 4, twenty dollars each; clerks of companies, ten dollars each; stewards, fifteen dollars each.

Section 2. This Ordinance shall take effect upon its passage.

Passed February 3, 1914.

#### TIME OF PAYMENT OF SALARIES.

Be it ordained by the City Council of the City of Rochester as follows:

Section 1. Amend section 1, Chapter XXIII of the Ordinances, relating to payment of salaries of city officers, by inserting after the word "payments" in the eighth line the words "all firemen in equal semi-annual payments;" also further amend by striking out in the ninth line the words "and firemen" so that the portion of said section as amended shall read as follows:

Section 1. The salaries of the several officers mentioned in this section for each municipal year shall be fixed at the annual rates herein set forth, and shall be payable as follows: The mayor, city treasurer, city solicitor, city physician, overseer of the poor, police judge and clerk of the police court, in equal quarterly payments; the city clerk, street commissioner, sanitary officer, all regular police officers and the superintendent of the water works, in equal monthly payments; all firemen in equal semi-annual payments; and all other salaried officers annually.

Section 2. This Ordinance shall take effect upon its passage.

Passed February 3, 1914.

### PAY OF ENGINEERS.

Be it ordained by the City Council of the City of Rochester as follows:

Section 1. Amend section 1, of Chapter XXIII of the Ordinances relating to the salaries of the Chief Engineer and Assistant Engineers of the Fire Department, as amended June 4, 1907, by striking out after the word "department" in the second line, the word "one" and substituting therefor the word "two;" also further amend by striking out after the word "department" in the fifth line the word "seventy-five" and substituting therefor the word "one hundred," so that, the portion of said section as amended shall read as follows: The Chief Engineer of the Fire Department, two hundred and fifty dollars. The first and second Assistants of the Fire Department one hundred dollars each, and the third and fourth Assistants of the Fire Department fifty dollars each.

Section 2. This Ordinance shall take effect upon its passage.

Passed February 3, 1914.

### CHANGE OF LINES FIRE PRECINCT AND WALLS OF BUILDINGS.

Be it ordained by the City Council of the City of Rochester as follows:

Section 1. Amend Section 1, Chapter IX of the Ordinances by striking out after the word "hereafter"

in the first line the words "without the consent of the city council," also further amend by striking out after the word "building" in the second line the words "the walls or partitions of which or any part thereof shall be of wood" and substituting therefor the following: except the walls and roof shall be incombustible; also further amend by striking out after the word "beginning" in the fourth line the remaining part of said section and substituting therefor the following: at the northeasterly abutment of the passageway under Bridge street, thence running northerly by the Cocheco river to the northeasterly abutment of the Stone Bridge on North Main street, thence northeasterly by said river one hundred and fifty feet, turning at right angles and running on a line distant one hundred and fifty feet from North Main street to Union street, thence running northeasterly by Union street to Wakefield street, thence southerly by Wakefield street to Summer street, thence by Summer street one hundred and fifty feet, turning at right angles and running on a line distant one hundred and fifty feet from Wakefield street to Autumn street, thence northeasterly by Autumn street to the Boston and Maine railroad track, thence southerly by railroad track to Portland street, thence southwesterly by Portland street to South Main street, thence southeasterly by South Main street to Liberty street, thence southwesterly by Liberty street to Charles street, thence northwesterly by Charles street to Congress street, thence northeasterly by Congress street to the easterly corner of land of Charles E. Clark, formerly Norway Plains Manufacturing Company, thence northwesterly in a direct line to the easterly corner of said Clark's counting room building, thence northwesterly in a direct line to the point begun at, so that said section as amended shall read as follows:

Section 1. No person shall hereafter erect or cause to be erected any building, except the walls and roof shall be incombustible within the following limits of the city to wit: Beginning at the northeasterly abutment of the passageway under Bridge street, thence running northerly by the Cocheco river to the northeasterly abutment of the Stone Bridge on North Main street, thence northeasterly by said river one hundred and fifty feet, turning at right angles and running on a line distant one hundred and fifty feet from North Main street to Union street, thence running northeasterly by Union street to Wakefield street, thence southerly by Wakefield street to Summer street, thence by Summer street one hundred and fifty feet, turning at right angles and running on a line distant one hundred and fifty feet from Wakefield street to Autumn street, thence northeasterly by Autumn street to the Boston and Maine railroad track, thence southerly by railroad track to Portland street, thence southwesterly by Portland street to South Main street, thence southeasterly by South Main street to Liberty street, thence southwesterly by Liberty street to Charles street, thence northwesterly by Charles street to Congress street, thence northeasterly by Congress street to the easterly corner of land of Charles E. Clark, formerly Norway Plains Manufacturing Company, thence northwesterly in a direct line to the easterly corner of said Clark's counting room building, thence northwesterly in a direct line to the point begun at.

Section 2. This Ordinance shall take effect upon its passage.

Passed February 3, 1914.

#### PAY OF STREET COMMISSIONER.

Be it ordained by the City Council of the City of Rochester as follows:

That paragraph 5 of Chapter XXIII be stricken out and the following inserted in place thereof: The

Street Commissioner, eight hundred dollars and two hundred in addition for the use of his team.

Passed February 3, 1914.

# AUTHORIZING COMMITTEE ON STREET LIGHTS TO AWARD CONTRACT.

Resolved by the City Council of the City of Rochester as follows:

That the Mayor and the Committee on Street Lights be and are hereby authorized and empowered to enter into a contract with the Twin State Gas and Electric Co., of the City of Dover for the lighting of the streets of the City of Rochester for a term of five years, the same to date from January 1, 1914.

Amended that the Committee be empowered to make a contract at moon-light schedule at the lowest possible rate.

Passed as amended February 3, 1914.

# RELATING TO INSPECTION OF COMBUSTIBLES.

Be it ordained by the City Council of the City of Rochester as follows:

Section 1. Amend Section 12, Chapter VIII of the Ordinances by inserting after the word "deposited" in the third line the words "once a month and oftener if necessary;" also further amend by adding to said section at the end thereof the following words: A record of all inspections herein provided shall be kept by said board and regularly filed at the completion of each inspection at the office of the City Clerk, so that said section as amended shall read as follows:

Section 12. The board of engineers shall examine all places where shavings and other combustible

materials may be collected or deposited, once a month, and oftener if necessary, and cause the same to be removed by the tenants or occupants of such place, or at their expense, whenever, in the opinion of said board, such removal is necessary for the security of the city against fire. A record of all inspections herein provided shall be kept by said board and regularly filed at the completion of each inspection at the office of the City Clerk.

Section 2. This Ordinance shall take effect upon its passage.

Passed March 3, 1914.

#### PURCHASE OF HORSE FOR WATER DEPARTMENT.

Resolved by the City Council of the City of Rochester:

That a sum not exceeding three hundred (\$300.00) dollars be, and the same is hereby appropriated for the purchase of a suitable horse for the Department of Water Works and Sewers, said sum to be paid out of the earnings of the Water Works Department.

Passed March 3, 1914.

#### TO PROCURE SITE FOR STONE CRUSHING PLANT.

Resolved by the Mayor and Council of the City of Rochester:

That the Committee on Roads, Bridges and Drains be authorized to make and procure all necessary credentials pertaining to the rights in connection with obtaining a privilege for the City of Rochester to locate a stone crushing plant on a certain tract of land owned by C. W. Bradley, as recommended by said Committee,

and that all monies expended on the same shall be taken from the annual appropriation for the Highway Department.

Passed March 3, 1914.

### STRAIGHTENING NORTH MAIN STREET.

Be it resolved by the City Council of the City of Rochester:

That all of that part of the southwesterly side of the highway known as North Main street, leading from Central Square to property of Charles E. Clark lying southwesterly of a line located and described as follows, to wit: Beginning at the northeast corner of the Lewis McDuffee block, said corner being 49.56 ft. northerly from the northeast corner of the Salinger block and 69.30 ft. westerly from the southwesterly corner of the Dodge block, thence deflecting 1 degree 16 min. to the left from the line of the face of the said McDuffee block and running northerly 111.97 ft. in a straight line to the northeasterly corner of the brick foundation of the Hale block, the corner of said foundation being 78.52 ft. northwesterly from the northwest corner of the main Dodge block, 66.15 ft. northwesterly from the northwest corner of the Dodge Annex and 65.95 ft. southerly from the northwest corner of the store occupied by Charles M. Bailey, thence deflecting 1 degree, 15 min. to the left and running in a straight line 117 ft. to an iron spike driven in the ground on the line between the Hale and Clark property, said spike being 34.58 ft. northerly from the northeast corner of the main house on the Hale property, 64.35 ft. westerly from the northwest corner of the Cocheco block and 94.12 ft. southerly from the southwest corner of the Farnham block, be and is hereby discontinued.

Passed April 7, 1914.

TO EXTEND DEEP SEWER ON COCHECO  
AVENUE, EAST ROCHESTER.

Resolved by the City Council of the City of Rochester:

That the Committee on Water Works and Sewers be, and the same is hereby authorized to extend the deep sewer from Cocheco avenue to the house of Martin E. Jones at No. 8 Union street in East Rochester, the cost of the same to be paid out of the regular appropriation for deep sewers.

Passed April 7, 1914.

TO PAY JOSEPH WARREN BILL.

Resolved by the City Council of the City of Rochester:

That the sum of twenty-five dollars be placed at the disposal of the Committee on Public Buildings to pay the bill of Hon. Joseph Warren, for paintings and jardeniere located in the Mayor's office. The same to be paid from the annual appropriation for the Miscellaneous department.

Passed April 7, 1914.

TO CHANGE SCENERY DOOR.

Resolved by the City Council of the City of Rochester:

That the sum of one hundred dollars be placed at the disposal of the Committee on Public Buildings, for the purpose of enlarging the scenery door of the Opera House, the same to be paid from the earnings of the Opera House.

Passed April 7, 1914.

# PERTAINING TO JOHN E. MOORE CEMETERY FUND.

Resolved by the City Council of the City of Rochester:

That, hereafter, all accumulations from the trust fund left by will of Mrs. John E. Moore to the City of Rochester as Trustee, the income of which is to be expended in the cemetery at Gonic Village, be paid to the Gonic Cemetery Association, to be expended under their direction.

Passed April 7, 1914.

## TO SELL FIRE DEPARTMENT APPARATUS.

Resolved by the City Council of the City of Rochester:

That the Committee on Fire Department be, and the same is hereby authorized to sell the Resolute No. 6 Hook and Ladder truck, one fifty foot extension ladder, one twenty foot roof ladder, and the Cocheco No. 1 hand engine.

Passed April 7, 1914.

## TO PURCHASE OUTFIT FOR CITY SEALER.

Resolved by the City Council of the City of Rochester:

That the sum of one hundred and fifty dollars be, and the same is hereby appropriated for the purchase of the proper apparatus for the use of the City Sealer of Weights and Measures, said sum to be paid out of the regular appropriation for the Miscellaneous department.

Passed April 7, 1914.

## REGARDING VACATIONS.

Resolved by the City Council of the City of Rochester:

That all city employees, who have been in the employ of the city a year, or more, be granted a vacation of two weeks during the summer, with full pay for one week, the time to be determined by the Mayor and heads of departments.

Passed April 7, 1914.

## RELATING TO DEALERS IN JUNK.

Be it ordained by the City Council of the City of Rochester:

That we amend Section 1 of the Ordinance passed March 4, 1913, by inserting the word "suitable" after the word "more" in the second line thereof; also strike out that section commencing with the word "resident" and ending with the word "Rochester," in the second and third line thereof.

Also amend Section 5 by striking out that section commencing with the word "for" and ending with the word "Rochester" in the fourth line thereof.

Also amend Section 6 by striking out the words "April 1, 1913" at the conclusion thereof and inserting the words "upon its passage" in its stead, so that said ordinance as amended shall read as follows:

Be it ordained by the City Council of the City of Rochester:

Section 1. The City Council may, by major vote at any regular meeting, license one or more suitable persons to be dealers in, and keepers of shops for the purchase and sale or barter of old junk, old metals, cotton or woolen mill waste, unfinished cloth, and

cotton or woolen mill yarns in an unfinished state, not of family manufacture; and such license shall continue in force from date of issue until the first day of April next following, unless sooner revoked.

Section 2. Application for license under the provisions of this Chapter shall designate the place where the business of the applicant is to be carried on, and any person who shall be a dealer in the articles aforesaid, or keep a shop therefor, without a license, and any person having a license who shall carry on the business at any other place than that specified in his license, or who shall violate any of the provisions of this ordinance, or who shall fail to exhibit his license when required, shall be fined not exceeding ten dollars or imprisoned not exceeding thirty days.

Section 3. No person so licensed shall purchase from any minor under the age of sixteen years, nor barter with any such minor for any article named in Section 1 hereof, without the written consent of the parent or guardian of such minor; and said licensee shall keep a record of all the articles aforesaid obtained by him, by barter or otherwise, of any minor, and of cotton or woolen mill waste, unfinished cloth, and cotton or woolen mill yarns in an unfinished state, not of family manufacture, obtained by him of any person, specifying the time of obtaining them, the number, weight, quantity, and other description of the articles, and the name and residence of the person offering the same for sale or barter, which shall at all times be open to the inspection of the police officers or any other person upon the written order of the mayor or the justice of the police court.

Section 4. Each licensee shall be assigned a number at the time his license is granted, and said licensee shall cause said number to be plainly displayed upon

the vehicle used by him, in characters not less than two inches in height.

Section 5. Each person licensed under the provisions of this ordinance shall pay to the City Clerk at the time he receives his license, the sum of ten dollars, and no person other than the one in whose name the license is issued, shall be permitted to use said license unless specially permitted so to do by order of the Mayor.

Section 6. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed, and this ordinance shall take effect upon its pasasge.

Passed May 5, 1914.

#### TO REVISE ORDINANCES.

Be it resolved by the City Council of the City of Rochester:

That Mayor Frank B. Preston, Councilman Frederic E. Small and Councilman Eugene C. Foss, be and hereby are constituted a committee on behalf of the City Council to revise the Ordinances of said City of Rochester, who, with the aid of the City Solicitor will report a draft of its revision of the same for future action of the Council.

Passed May 5, 1914.

#### TO INVESTIGATE CONDITIONS AT RAILROAD CROSSINGS.

Resolved by the City Council of the City of Rochester:

That the Committee on Highways be instructed to investigate the conditions which exist at the Main and Upham streets railroad crossings and report at the next regular meeting.

Passed May 5, 1914.

## REGARDING THE STRAIGHTENING OF NORTH MAIN STREET.

Resolved by the City Council of the City of Rochester:

That whereas Charles E. Clark, owner of the land set forth and described to be taken in a petition now pending before the City Council of the City of Rochester, for the straightening, widening and establishing of the southwesterly side line of said North Main street, has this day conveyed by deed to the City of Rochester all of the land described in said petition and established by said deed the southwesterly side line of said street, as in said petition described, there is no occasion for further action upon said petition, and therefore the same be dismissed.

Passed June 2, 1914.

## APPROPRIATION FOR PERMANENT HIGHWAYS.

Resolved by the City Council of the City of Rochester:

That a sum not exceeding four thousand dollars (\$4,000), be appropriated for building additional permanent highways, to be paid out of any monies not otherwise appropriated.

Passed June 2, 1914.

## REPAIRS AT EAST ROCHESTER FIRE STATION.

Resolved by the City Council of the City of Rochester:

That the Committee on Public Buildings be, and the same is hereby authorized, to spend the sum of sixty-five dollars (\$65.00) in the construction of a movable partition and ceiling in that part of the fire

station at East Rochester occupied by the fire department, and that the same be paid out of any monies not otherwise appropriated.

Passed June 2, 1914.

#### REGARDING PAY OF FOREST FIRE FIGHTERS.

Resolved by the City Council of the City of Rochester:

That, in fighting forest fires and other fires at a distance where men outside of the fire department are called upon to assist, the pay of the fire warden shall be 40 cents per hour, the deputies 35 cents per hour, and fire fighters 25 cents per hour.

Passed June 2, 1914.

#### TO ERECT FLAG POLE AT CITY HALL.

Resolved by the City Council of the City of Rochester:

That the Committee on Public Buildings investigate as to the feasibility of erecting a flag pole on City Hall, and that they estimate the probable cost of same.

Passed June 2, 1914.

#### REGARDING COLLECTION OF TAXES.

Be it ordained by the City Council of the City of Rochester as follows:

Amend Section 2 of Chapter XVIII by inserting in the second line thereof after the word "taxes," the word "if," also by inserting after the word "paid" in the same line the words "in full," also by striking out in the third line at the end thereof the words "on all," also by adding before the word "paid" in the fourth

line the word "if," also by inserting after the word "paid" in the fourth line the words "in full" so that said section as amended shall read as follows:

Section 2. A discount of one and one-half per cent. shall be allowed on all taxes if paid in full on or before the first day of July in each year in which they are assessed, and one per cent. if paid in full on or before the first day of August in each year.

Passed June 2, 1914.

#### REGARDING FLAG FOR CITY HALL.

Resolved by the City Council of the City of Rochester:

That the Purchasing Committee be authorized to ascertain the cost of a suitable flag for City Hall.

Passed July 7, 1914.

#### REGARDING ELECTRIC LIGHT NEAR ST. CHARLES ORPHANAGE.

Resolved by the City Council of the City of Rochester:

That the Committee on Street Lights be instructed to install a light opposite the St. Charles Orphanage and be given power to locate such poles as may be necessary.

Passed July 7, 1914.

#### EXTENSION OF WATER MAIN ON WAKEFIELD STREET.

Resolved by the City Council of the City of Rochester:

That the Committee on Water Works be authorized to extend the water main from Glenwood avenue to land of George Gagne's on the Milton road, a distance of approximately 450 feet.

Passed July 7, 1914.

## REGARDING EXTENDING WATER MAIN AND CONNECTING DEAD ENDS.

Resolved by the City Council of the City of Rochester:

That the Committee on Water Works and Sewers be and are hereby instructed to investigate and ascertain the approximate cost of extending the 16 inch water main from Knight street to the easterly side of the Boston and Maine R. R. on Winter street and extending the same up through the "conflagration district" so called, to the mill of W. H. Champlin.

Also ascertain the cost of connecting the dead ends in our water system as recommended by the Board of Underwriters. Report to be made at the next regular meeting.

Passed July 7, 1914.

## REGARDING LAYING OUT A NEW STREET.

Resolved by the City Council of the City of Rochester:

That a special committee of three be appointed by the Mayor to investigate the advisability of laying out a new street running from River street, through land owned by the city, to Moore's court, and the approximate cost of building the same.

That said committee be, and the same is hereby authorized to employ an engineer to survey the land owned by the city, and the layout for a proposed street, having in mind the principal object of financial benefit to the city.

Passed August 4, 1914.

## REGARDING GAS PIPE AND SERVICE.

Resolved by the City Council of the City of Rochester:

That the Mayor be, and is hereby authorized and requested to at once petition the Public Service Commission to compel the Strafford-York Gas Company to promptly lay new pipe line for the full length of Charles street, of the most approved material, and to manufacture and deliver to its customers a better quality of gas at a lower rate and to discontinue the further use of the pipe line now laid in said street.

That the Mayor be also instructed to take all other necessary steps to cause said changes to be made as rapidly and quickly as possible so that our citizens get early relief from the great danger that so threateningly menaces them. And that a sum of money not to exceed two hundred dollars be appropriated from any money not otherwise appropriated, the same to be used to defray necessary expenses. -

Amended so as to read, that if no action is taken as called for in resolution at the expiration of fifteen days, the city will appeal to the Public Service Commission.

Passed August 4, 1914.

APPROPRIATING MONEY FOR THE DEPART-  
MENTS OF SHADE TREES, PARKS AND  
COMMONS' AND BROWN TAIL  
MOTHS.

Resolved by the City Council of the City of Rochester:

That the sum of one hundred dollars be placed to the credit of the Department of Brown Tail Moths

and three hundred dollars to the Department of Shade Trees, Parks and Commons. These sums to be taken from any monies not otherwise appropriated.

Passed August 4, 1914.

### REGARDING REPAIRS AT CENTRAL FIRE STATION.

Resolved by the City Council of the City of Rochester:

That the Committee on Public Buildings be authorized to make repairs in the basement of the Central Fire Station to suitably and permanently protect the machinery and apparatus there installed in conjunction with the fire alarm, and that a sum not exceeding two hundred dollars (\$200) be and the same is hereby appropriated for that purpose, the same to be paid out of any monies not otherwise appropriated.

Passed September 1, 1914.

### REGARDING NAMES OF NEW PARKS.

Resolved by the City Council of the City of Rochester:

That the Parks recently established at Gonic Village and at the junction of River and Chestnut streets in the city proper be and the same shall hereafter be known respectively as Union Park and Duval Park.

Passed September 1, 1914.

### TO TRANSFER FROM ONE DEPARTMENT TO ANOTHER.

Resolved by the City Council of the City of Rochester:

That if found necessary in closing the business of the year to transfer from a department where there is

a surplus to a department where there is a deficit, the Committee on Finance be authorized to make such transfer.

Passed November 4, 1914.

#### ADOPTING LAWS AS TO PLUMBERS.

Resolved by the City Council of the City of Rochester:

That Chapter 55, Laws of 1899, as amended 1901 and 1913, authorizing the examination of plumbers and regulating the practice of plumbing and house drainage, be, and the same is hereby adopted.

Passed November 12, 1914.

#### TO CHANGE OUTLET OF ROUND POND.

Resolved by the City Council of the City of Rochester:

That the Committee on Water Works and Sewers be authorized to change the outlet of the reservoir at an estimated cost of \$150, maximum, the same to be paid out of the earnings of the Water Department.

Passed November 12, 1914.

Report of

## Superintendent of Water Department

For the Year Ending December 31, 1914

---

To the Committee on Water Works.

Gentlemen: The twenty-third annual report of the Water Department is herewith submitted. Source of supply during the year: January 1 to July 5, Reservoir; July 5 to December 16, Round Pond; December 16 to December 31, Reservoir.

During the month of August the presence of Algae in Round Pond became quite noticeable but disappeared in a short time after being treated with Sulphate of Copper. During the week of April 15 the gate-house at Round Pond was carried from its normal position by the ice and unfitted for further use. As it was located 300 feet from shore, it was necessary to secure the services of a submarine diver and construct a temporary screen chamber. It will be necessary to construct in the near future a permanent gate-house, and I would respectfully recommend that the same be built on shore as I believe that the results would be more satisfactory.

Concrete work of a permanent nature has been done on the gate-house at Berry Brook Dam.

Seventy-five per cent. of all service boxes in the city have been raised to grade and errors in location noted. Some were found two feet below the surface and very many measurements were found incorrect as the tie-ins were taken from trees or other objects which have since disappeared.

All hydrants have been repaired and are in good working order, and the usual inspection is carried on during the winter months. Six Coffin hydrants have been replaced by Ludlow hydrants with steamer connection. One new hydrant has been added near the house of George Torr on the Milton Road.

Hydrants to date 183

Hydrants repaired 30

During the past year 177 meters have been installed by order of the city council and at the request of consumers. Fifty per cent. of all services are metered.

The following table gives size, make and number of meters in use in city:

Make	5-8 in.	3-4 in.	1-in.	1½-2 in.	2-in.	3-in.	4-in.	6-in.
Gamon	12							
Hersey	17							
Lambert	393	42	5					
New American	1		2					
National	18	75	21	3	3	2	1	2
Trident	210	4	2	3	1			
Worthington	2							
	653	121	30	6	4	2	1	2

Owned by city 563

Owned by consumer 256

Total in use 819

On December 24th, there was no pressure on the system from 6.30 a. m., until 7.45 a. m., owing to the failure of a 16-inch submerged gate to open.

New services, pipe laid, etc., during the past year:

	$\frac{3}{4}$ in.	1 in.	$1\frac{1}{2}$ in.	2 in.	6 in.
Milton road					466 ft.
So. Main street					257 ft.
River street					42 ft.
Cleveland street		67 ft. 5 in.			
Dewey street,		531 ft. 3 in.			
Church street				10ft.	
Hickey street	76 ft.				
Off Charles street			283 ft. 9 in.		
Total laid to date				31 miles 2,994 feet	
New services					39
Services relaid					58
Services discontinued					3
Services to date					1,630
Joint leaks in main pipe					12
Leaks in service pipe					15

Number of feet of service pipe laid during the year:  $\frac{3}{4}$  in., 4,280 feet; 1 in., 289 feet; total, 4,569 feet.

Gates set during the year: 6 in., 4; 8 in., 1.

An inventory of material and tools in this department, January 1, 1915, is on file in the city clerk's office.

To the Committee and to the Mayor and Honorable Council, I wish to extend my sincere thanks for the assistance and support accorded me during the past year.

Respectfully submitted,

FRED W. CROCKER,

Superintendent of Water Works.

Report of

## Superintendent of Sewers

For the Year Ending December 31, 1914

---

To the Committee on Sewers.

Gentlemen: The annual report of the Superintendent of Sewers is herewith submitted:

Number of permits issued to do plumbing	70
Connections put in during the year	67
Discontinued	1
Connections to date	1,202
Number of feet of main pipe laid during year:	
6 inch	
Cleveland street	245 ft.
Off Charles street	296 ft.
Union street, E. R.	244 ft.

Manholes constructed	2
----------------------	---

Manholes raised to grade	12
--------------------------	----

I have been called to clear 29 sewer connections. In nearly all cases the trouble is caused by the entrance of fibrous roots through the joints of the pipe.

The mains on Summer, Pleasant and River streets have stopped and been cleared during the year.

During the month of July a Septic tank was constructed on the City lot off South avenue to receive the sewage from a portion of Lafayette street which for years has been discharged over the City lot much to the dissatisfaction of the residents of that section. No complaints have been received since the construction

of the tank, and I believe the sanitary conditions there will be satisfactory in the future.

The entire system has been flushed in the spring and fall and is in good working condition.

An inventory of materials and tools in this department, January 1, 1915, is on file in the City Clerk's office.

Respectfully submitted,

FRED W. CROCKER,

Superintendent of Sewers.

Report of the  
Chief Engineer of the Fire Department

For the Year Ending Dec. 31, 1914.

---

To the Honorable Mayor and members of the City Council:

Gentlemen: There have been seventeen box alarms, thirty-four chimney fires (still alarms), and fourteen brush and forest fires, in the city proper, two bell alarms and two brush fires at Gonic, and three alarms at East Rochester, making a total of seventy-two alarms for the year.

The amount of property involved is as follows:

Value of buildings	\$28,850 00
Insurance on same	23,500 00
Losses paid	8,362 32
Value of contents	5,650 00
Insurance on same	5,250 00
Losses paid	2,103 62

I would recommend that there be purchased immediately a whistle blowing machine, as the one we have at present has been in operation for twenty-two years, and is so badly worn that it cannot be depended upon in sounding an alarm.

The alarm from Box 37 went dead before it had gone the four rounds as it is supposed to do and I could get no response at all to the all out signal. I think this is a serious matter and should be attended to at once, or we will find ourselves without a fire alarm when it will be badly needed.

I would also recommend the purchase of 1,000 feet of double jacket rubber lined hose. For several years past I have recommended that there be purchased a motor propelled truck, which could be fitted up with chemicals to be used for brush and chimney fires; it could also carry from six to eight hundred feet of hose. Our greatest expense in fighting brush fires is in transportation.

There has been purchased for the department during the year 1,000 feet of double jacket rubber line hose, fifteen coats, twenty hats, one electric search light, one dozen hydrant wrenches, also two play pipes for the East Rochester Company. The Combination Ladder truck and Ela Hose wagon have been painted and varnished, which adds very much to their appearance.

I wish to say right here that there are no better fire fighters in the state than we have in Rochester and with the equipment which we have they do most excellent work. New buildings are constantly being erected and new industries coming into the city thus adding to the fire hazard, while nothing has been added to the fire fighting equipment, which is a long way behind the times.

In conclusion I wish to thank all who have in any way contributed to the welfare of the department and I would especially thank the members of the department for their good will and hearty support during the year.

Respectfully submitted,

C. E. RANDALL,

Chief Engineer Fire Department.

## SIGNALS AND CALLS

Two strokes of the bell is the all-out signal.

Six strokes of the bell is for a brush fire, or a fire at a distance, where the fire department will be needed.

One stroke of the bell is the engineer's test.

The above signals are given only by the chief engineer.

---

## Report of the City Marshal

---

To the Honorable Mayor and City Council:

Gentlemen:—I have the honor to submit for your consideration the annual report of the Department of Police for the year ending December 31, 1914.

The police force consists of the following officers: John Young, City Marshal; Isaac D. Piercy, Assistant Marshal; Ferdinand Sylvain, Night Watch.

---

### ARRESTS

Number of arrests	210
Drunks	131
Keeping for sale intoxicating liquors	13
Selling intoxicating liquors	13
Gambling	5
Keeping place for gambling	1
Brawl and tumult	9
Indecent exposure of person	1
Offensive language on street	1
Disorderly conduct on train	1
Vagrancy	3
Larceny	4
Concealed weapons	1
Breaking and entering	5
Assault on officer	3
Evading fare on electric railroad	1
Trespassing on B. & M. R. R.	2
Adultery	1
Cruelty to horse	2

Perjury	1
Simple assault	4
Non-support of child	1
Attempted larceny	1
Polluting of water in spring	1
Assault on wife	1
Assault and robbery	1
Racing horse on highway	1
Exposing fruit on sidewalk	1
Violating primary law	1
	<hr/>
Total	210

Disposed of as follows:

Thirty days in House of Correction, sentence suspended on payment of costs, mittimus at the call of the marshal	7
Fine and costs, sentence suspended, mittimus at the call of the marshal	6
Ninety days and costs committed to jail	4
Sentenced to pay fine and costs, given time to pay	19
Thirty days at House of Correction and pay costs	1
Sixty days in jail and pay fine and costs, jail sentence suspended on payment of fine and costs	5
Cases continued for sentence	3
Appealed to Superior Court and gave bonds	11
Committed to House of Correction	18
Committed to Dover Jail	6
Cases nol-prossed and prisoners turned over to U. S. officers	3
Ordered discharged	4
Thirty days in jail and pay fine and costs, jail sentence suspended on payment of fine and costs. Appealed and gave bonds	2

Discharged for disclosing on liquor seller	4
Complaint placed on file	1
Cases dismissed on payment of costs	2
Ninety days in House of Correction and pay costs of prosecution	1
Ordered to give bonds for appearance at the Superior Court and committed to jail	2
Selling intoxicating liquor case, dismissed	1
Selling intoxicating liquor, thirty days in jail and pay fine and costs, jail sentence suspended on payment of fine and costs	3
Selling intoxicating liquor, thirty days in jail and pay fine and costs, committed to jail	3
Larceny, case nol-prossed	1
Larceny, sixty days in jail and pay fine and costs, committed to jail	1
Assault on officer, ordered to pay fine and costs, committed to jail	1
Assault on officer, thirty days House of Correction	1
Assault on wife, thirty days House of Correction	1
Assault and larceny, ordered to give bonds of \$1,000 for his appearance at Superior Court	1
Ordered to pay fine and costs, so much of sentence as related to fine suspended on payment of costs	2
Complaints squashed	3
Sentence suspended during good behavior, mittimus at the call of the Marshal	12
Thirty days in House of Correction and pay fine and costs, sentence suspended during good behavior	11
Ninety days in House of Correction and costs, so much of sentence as related to House of Correction, suspended mittimus at the call of the Marshal	1

Paid fine and costs	69
Total	<u>210</u>

---

246 lunches for prisoners	\$49 20
Number of lodgers	1,808
Red lights used to call officers at night	21
Store doors found unlocked at night	12
Lights out in B. & M. R. R. station at night	1
Stores broken into and investigated by Marshal	5
Houses broken into and investigated by Marshal	2
Teams stolen and recovered by officer	2
People missing from the city and looked up by Marshal	2
Riding bicycle on sidewalk	3
Bicycles found on street and returned to owner	3
Trouble in homes with children and on the street investigated and settled out of court by Marshal	4
Many minor cases have been settled by the Mar- shal out of court

## FINANCIAL REPORT

### Receipts

Balance in hands of City Marshal, January 1, 1914	\$ 69 13	
Witness fees from Superior Court, 1914	32 03	
Costs	694 32	
Money held by City Marshal for Samuel N. Small, 1913 report	110 00	
	<u>          </u>	\$905 48

## Expenses.

Paid witness fees	\$ 63 75	
Taking prisoners to Jail and House of Correction	22 02	
Paid City Treasurer	794 12	
Balance in hands of City Marshal	25 59	
	<hr/>	\$905 48

---

Although the department is numerically small I am constrained to reflect upon the general good order and absence of crime in our city. This being a railroad center, I find that most of the arrests for drunkenness and crime are from non-residents. The Rochester Fair was as usual a busy week with the police. Several cases of larceny from the person were reported and arrests made. The officers of the Fair Association are to be commended for aiding the police in making arrests. We would recommend that better protection be given our citizens and their property at night. Some sections of our city are not patrolled at night and we believe with the large floating population who remain in our city a few weeks at a time, the city should have another night watch and new routes assigned to the officers at night.

In conclusion I wish to thank the City Solicitor and the Judge and Clerk of the District Police Court, for advice and assistance rendered in the discharge of my duties as City Marshal. Also the Assistant Marshal and Night Watch for faithful service in the discharge of duty.

INVENTORY OF PROPERTY  
Police Department

Marshal's office  
1 roll top desk  
1 wardrobe  
1 bookcase  
1 table  
6 chairs  
1 mirror  
1 umbrella stand  
1 marshal's baton and belt  
1 assistant marshal's baton and belt  
4 patrolman's baton and belt  
2 city marshal's badges  
1 assistant marshal's badge  
1 police badge, officer at Gonic  
31 police badges  
9 keys for station and lodging room  
6 cell keys  
2 keys to store room  
4 pairs hand cuffs  
3 pairs twisters  
1 police whistle

Police Station

1 desk  
1 table  
3 chairs  
1 umbrella stand  
1 file case  
1 standard scale  
1 clock  
2 flash lights

Respectfully submitted,  
JOHN YOUNG,  
City Marshal

Report of

**Street Commissioner**

---

On Highways for Year 1914.

To the Committee on Roads, Bridges and Drains:

Gentlemen:—I herewith submit the following report for the year ending 1914. The expenditures of the department will be found in the reports of expenditures of the various departments.

The road situation of today presents many problems. It is doubtful if road conditions will ever be without problems, for changes are constantly taking place requiring an equivalent adjustment in methods of dealing with them. New demands are pressing; advanced methods of construction are needed; old systems are inadequate; old abuses and prejudices are persistent; opportunity for reform and progress is abundant and urgent. It is not intended to convey the impression that all roads can be built at a stroke; there must be a starting point. For this purpose certain roads must be selected for immediate improvement, others to take their turn later. Traffic conditions will indicate the roads on which traffic seeks to concentrate, and, commencing with these, the general system can be developed from year to year.

Road improvements the past year: 4,986 square yards tar bound macadam road constructed on Strafford Road near Meaderboro Corner at a cost of \$.6632 per square yard. 6,833 square yards water bound macadam road constructed on Eastern avenue at a cost of \$.5486 per square yard. 6,481 square yards asphalt bound

macadam road constructed on South Main street at a cost of \$.6259 per square yard. 1,806 feet of cement curb constructed on South Main street at a cost of \$.4155 per ft. A surface sewer installed on Lafayette street, Waldron avenue, Springfield and Moore's court at a cost of \$2,615.32. The surface sewer on Maple street extended into Highland street and a section of the surface sewer on Winter street relaid. In addition to the above improvements the Department used 700 loads of gravel on various streets for grading purposes. Worked the road machine 24 days. Surfaced a section of the old Dover Road with clay. Graded a section of the road in Whitehall Swamp with field rock. The dragging of roads the past year has proven very beneficial in sections where the roads were previously turn-piked with road machine; five plank drags similar to split log drags were used in this work.

I wish also to call your attention to the winter expense, which is quite an item. The cost of caring for snow, ice and water at the beginning of the year was approximately \$2,000; this amount, added to the costs of the numerous minor repairs that are hardly noticeable along the lines of road improvement, have a tendency to greatly lessen the annual appropriation. Therefore it is very difficult to plan for any extensive permanent improvements, except that a sufficient amount be appropriated for this class of work.

In conclusion, I wish to express my thanks to the Committee and Honorable Council for the support and assistance accorded me in the performance of my duties during the past year.

Respectfully submitted,

GEORGE D. DAME,

Street Commissioner.

Report of

Street Commissioner on Sidewalks

For Year of 1914

---

To the Committee on Roads, Bridges and Drains:

Gentlemen.—I herewith submit the following report for the year ending 1914. The expenditures of the Sidewalk Department will be found in the report of expenditures of the various departments.

The past year 851 square yards of granolithic walks were laid on Main, River, Union, Railroad avenue and Summer streets. 247 square yards tar concrete on North Main street; one stone crossing laid on River street; one stone crossing laid on Portland street; one cement crossing laid on Liberty street.

We have used as re-surfacing material all the cinders that were available at the round house, also Gonic and East Rochester mills.

Respectfully submitted,

GEORGE D. DAME,

Superintendent of Streets.

Report of the

## Manager of Opera House

---

To the Committee on Public Buildings of the Rochester City Council:

Gentlemen:—As manager of the City Opera House for the year 1914, I submit the following report. During the year just closed I have been able to secure a considerable number of good bookings, in comparison about the same number as during 1913. The general depression in business has been keenly felt by the travelling companies, so that I have had some cancellations of good attractions. The outlook for 1915 is encouraging and although we may not have as many openings as in 1914, I trust what we may lose in quantity we may make up in quality.

I have endeavored at all times to keep the theatre in good order, always having in mind the comfort of our people, also the comfort of the travelling companies. My relations with the latter have been of the most pleasant kind and I am sure they all appreciate playing in Rochester.

It has been necessary to spend some of the earnings this year for permanent improvements, which I think will greatly facilitate the handling of shows. We doubled the size of our scenery door at a cost of \$72.60. We built a platform wagon for handling scenery, baggage, etc., at a cost of \$50.06.

I have not been able to secure a performance during the year for the Ushers' Benefit, but trust this can be

done during the early part of the present season. For the year 1915 the ushers will be placed on the house payroll, as they should have a regular compensation for their faithful services.

In another part of this report will be found a statement of the receipts and expenditures showing the net earnings to be \$553.82.

Respectfully submitted,

F. E. HUSSEY,

Manager.

## Report of Tree Warden

January 1, 1915.

---

To the Honorable Mayor and Council of the City of Rochester:

Gentlemen:—At the regular meeting of the city council held July 7 I was elected Tree Warden to fill the unexpired term of C. E. Goodwin and since that time the trees have been sprayed for brown tail moths. I find no attention has been given to the destruction of the gypsy moth of which I find a large number throughout the city. If the citizens of Rochester do not wish to see the beautiful shade trees stripped of their foliage in the spring, they will have to assist in destroying the nests of the gypsy moths on their own property at once. I find there are a great many dead trees about the city which should be removed as soon as possible on account of falling limbs.

Respectfully submitted,

M. E. JONES,

Tree Warden.

## Report of Board of Health

---

To the Mayor and City Council of the City of Rochester:

We herewith submit our report for the year ending Dec. 31, 1914.

Report for six months ending June, 30, 1914, C. E. Goodwin, Health Officer.

Contagious or infectious diseases reported.

Measles	254	} Only death one from measles

FORREST L. KEAY,

Overseer of Poor.

## Report of City Solicitor

---

To the Honorable Mayor and City Council of the City of Rochester:

Your Solicitor begs to make the following report of suits against the City of Rochester, pending during the year 1914.

On November 21, 1912, Mary T. Seccomb, Alice Newhall and Harry H. Newhall took an appeal from the damages awarded them in the straightening and widening of North Main street in October, 1912, and filed a petition for assessment of damages in the Superior Court for Strafford County, claiming that they were damaged by this lay out in the neighborhood of twenty-five hundred dollars; that after full consideration of the necessities of public travel by both the legal committee and the highway committee, it was decided that more land had been taken in the lay out of October, 1912, than was necessary for the convenience of the public and under a new petition to locate the south-westerly side line from Central square to Bridge street a part of the lay out made in October, 1912, was discontinued, and this side line of the street was fixed and established, awarding to Mary T. Seccomb, Alice Newhall and Harry H. Newhall, the owners of the Hale property, and the plaintiffs in said suit, the sum of five hundred dollars, which sum has been accepted by them, disposing of the suit pending before the Superior Court without costs or expense to the city.

At the September term, 1914, of the Superior Court A. Duncan Piggott, of Rochester, petitioned for abatement of taxes upon one linotype machine, claiming the ap-

praisal made by the board of assessors was too high and upon investigation I learned that the amount of tax actually in dispute was less than ten dollars. At the same term of court Warren T. Billings filed a petition for abatement of taxes upon certain printing presses, type, belting and accessories, claiming that the appraisal thereon by the board of assessors was too high and upon investigation of this case I learned that the amount of tax actually in dispute was about the same as in the Piggott case, and it required very little effort on my part to get a conference between the board of assessors and these parties and a satisfactory adjustment of the appraisal and tax was reached and the cases have been dismissed from the Court docket without costs to the City of Rochester.

William H. Wilkinson brought a suit against the City of Rochester returnable at the September term, 1914, of the Superior Court for Strafford County for the taking of two hundred eighty to three hundred loads of gravel, and removing of thirteen trees from his lot of land situate upon the Milton Road, so called, by George McDuffee while he was Superintendent of Streets. Upon a conference between the legal committee and Mr. Wilkinson and his attorney, Mr. Emery, it was learned that a settlement could be made for fifty dollars. As this gravel was used in the construction of the State Road, under the present arrangement with the State one-half of this sum would be chargeable to the State, and when paid the action will be dismissed without costs to the city.

Should the Council deem it advisable to authorize the payment of this sum, when made the city will be free from law suits and excepting the claim of Mr. Robillard there are none other that have come to my

knowledge indicating danger of legal disputes or complications.

I am told that a clean slate in this particular has not been enjoyed by the city since 1906, a period of nine years, and I feel that the city should be congratulated upon its freedom from these usually vexatious and expensive proceedings.

Respectfully submitted,  
ELMER J. SMART,  
City Solicitor.

Report of the Trustees  
OF THE  
Rochester Public Library

1914.

At a meeting of the Trustees of the Rochester Public Library, December 30, 1914, it was voted that the report of the Secretary, Librarian and Treasurer be presented to the City Council as the annual report of the Trustees for the year 1914.

## Report of Library Trustees

---

To the Honorable Council of the City of Rochester:

Gentlemen:—The Trustees of the Rochester Public Library, as required by the City Ordinance, submit the twenty-first annual report of the trustees, also the librarian's and treasurer's report for the year, 1914.

It is gratifying to the trustees to report the interest in the Public Library as manifested by the public in the reading room, also in the circulation of books.

A petition was received from the Woman's Club requesting the trustees to open the reading room on Sunday to the public. As an experiment it was voted to open the library for readers, during the month of December, from 3 to 6 P. M. Number of readers for four Sundays 140, an average of 35 a day. Some of these people have seldom or never visited the library before. The need of a place where those who work during the week can spend Sunday afternoon is evident to the public and the trustees. But all this increases the expense of running the library. Heat, light, janitor and librarian will be an added cost.

The trustees believe that an increase in the appropriation for the year will be needed in order to meet the request of the public and respectfully ask that the appropriation for 1915 be not less than four thousand dollars.

Repairs ought to be made on the building. The slate on the roof is of such poor quality that repairs have to be made every year. The roof ought to be reslated.

During the year new shelves have been added to the juvenile department, at a cost of \$73.34 and other necessary repairs made about the building. The trustees are pleased to report all bills for the year paid, leaving a balance of \$2.75.

We trust the Honorable Council will take into consideration the value of the library to our public schools and to the city and make the appropriation as requested \$4,000.00.

The trustees wish to express their appreciation of the efficient work done by the librarian and her assistants during the year.

For the Trustees,

JOHN YOUNG,

Secretary.

Rochester, N. H., December 30, 1914.

## Report of Librarian

---

To the Board of Trustees of the Rochester Public Library:

Gentlemen:—I herewith present the twenty-first annual report of the Rochester Public Library, for the year 1914.

As the time approaches for another annual report one wishes for a new way of stating dry facts or that some event might be remembered so interesting that the dullness of others would be forgotten or

“wad some power the giftie gie us

To see oursel’s as other’s see us!

would prove a novelty and possibly offer suggestions as to the future conduct of the library.

To the 16,466 volumes reported last year, have come the usual losses and reverses. Dogs and babies, the natural enemies of library books, have spoiled a few; others have been lost and have never found their way back; and some worn out by their continued popularity, after an average circulation of 180, have been discarded. These deducted from the 617 volumes added, make a net gain of 584, and a total of 17,050 volumes in the library.

One of the canons of library ethics is said to be, “That the purchase of books should reflect the need of the community rather than the personal taste of the librarian.” This has been strictly followed, except that the word “want” has often been substituted for “need.” During the year a fair proportion has been preserved in the various classes, a few valuable reference books taking a large share of the book allowance.

If, merely the collecting and circulating of books, with the side issues of children's room, reading and reference rooms and their attending duties, places a library in the old fashioned class, then, surely this is an old fashioned library, for we cannot give to the public either moving pictures or lectures, neither can we illustrate the children's story hour with the stereopticon nor do we aim to make the library a social center, much as these might add to its popularity and helpfulness. It has never been necessary to attract the Rochester people to books, the problem has always been, how to make the worth while books most attractive. The circulation for the year shows an increase of 1,515 over last year. The number of books given out to individuals being 57,679. If to this number were added the 1,894 books sent to the agencies (and it takes longer to prepare one book for a station than to give several over the counter) it would bring the total up to 59,573.

Great care has been taken to send to the agencies only books which they have never had. This has made necessary the checking of the entire catalogue and the making of many book slips but has remedied their complaints of receiving books a second time and will make it possible for them to have each circulating book in the library. East Rochester has had 788 Rochester books and their circulation totaled 2,618. Gonic, in addition to the weekly and monthly magazines provided, has had 1,108 books and a circulation of 3,133. East Rochester shows an increase of 778 in the number of books given out and Gonic a decrease of 564.

Early in the year extra shelving was added to the children's room. This, together with the necessary changes involved, and the several pictures contributed, has made the room much more attractive. But the children do need a clock and would like fittings for the

fire place. The story hour carried out each week until the first of April, seemed to interest the little folks and will be resumed in January. Boys have patronized the room rather more than girls, especially in the early evening. It is not an unusual thing to see twenty or more boys reading at the tables, and this in spite of the fact that but very few boys' books were purchased during the first nine months of the year. The reading attendance has been 7,174, while the number of books given out was 12,759. These figures show an increase of 1,647 readers and a decrease of 479 in circulation.

At the beginning of the year an attempt was made to keep at least a partial list of the questions brought to the library for solution but it was not carried out. As usual, reference has taken a large part of each day and the library is gradually becoming better equipped to take care of this part of the work. Pupils are being taught to depend upon themselves as much as possible in looking up information wanted. There has been an increase of 1,832 readers and students over last year, the total number being 14,070. When one considers that during the year 14,070 people have been entertained, interested or instructed in the library, an average of 270 each week it would seem as if this part of the work alone paid good interest on the time and money invested.

The experiment of opening the reading rooms on Sunday afternoon resulted in 140 readers for the four Sundays of December. 106 of the number were men and boys, the large majority reading nearly the entire afternoon. About 35 of these visitors rarely come to the library during the week for reading.

The larger circulation, the increasing reference work and the great wear and tear on the books have made it necessary to add a third regular assistant to

the staff. This has enabled us to keep up the work of the year and meet the various wants of the public with greater ease. The regular work has gone on with the proportionate increase along the many lines of library activity. An additional feature being the sorting, filing and listing of clippings. These arranged temporarily in file boxes have already served to supplement the reference material.

The great need of the coming year is books. The small book allowance of the past two years has made it impossible to fill, to any great extent, deficiencies in classes. For many subjects information to be worth while must be up-to-date, new subjects are continually coming before the public, the library must be kept abreast of the times, therefore several hundred dollars could be well spent at once in additions to the more important classes.

Then in spite of the vigilant care of a painstaking janitor, the floor shows the scars of almost ten years of ceaseless travel and the walls in some of the rooms need freshening and the roof needs to be mended. If these could be attended to gradually it would not mean such a drain on the library resources.

This year for the first time the New Hampshire Library Association held its annual meeting at the library. There were library folk from Concord, Derry, Dover, Durham, Franklin, Keene, Laconia, Manchester, Milford, Portsmouth, Wakefield and Windham. Also Miss Moore from New York City and Miss Farr from Philadelphia. This proved a most interesting occasion to the Rochester Library staff, bringing as it did encouragement, inspiration and suggestions from other library workers.

If we of the library staff, blinded by the light of our desires for the work, sometimes lose sight of the

realities accomplished; if often the results seem small as compared with the effort expended, we have only to look backward to the time when there was no public library, with its books for the asking, its opportunities for reading and knowledge, and we realize that, although the applause of the multitude does not reach us and appreciation of the work is rarely expressed, the public library must mean much to the City of Rochester, its individuals, its families, its clubs, its schools and its churches.

I wish at this time to speak of the good work of the assistants without whose co-operation the work of the year could not be carried out. I also wish to thank the trustees for their interest and encouragement.

Respectfully submitted,

LILLIAN E. PARSHLEY,

Librarian.

Rochester, N. H., December 30, 1914.

JOHN L. COPP,

Treasurer.

---

I have examined the receipts and expenditures of the financial reports of the Librarian, Lillian E. Parshley, and the Treasurer, John L. Copp. I find the same correctly cast and properly vouched.

JOHN YOUNG,

Secretary of the Board of Trustees.

Rochester, N. H., December 30, 1914.

ROCHESTER HIGH SCHOOL

Annual Report  
OF THE  
School Board of City of Rochester  
NEW HAMPSHIRE

FOR THE YEAR ENDING DECEMBER 31, 1914.

At the regular monthly meeting of the School Board of Rochester, December 10, 1914, the Superintendent of Schools read his report for the year ending December 31, 1914. This report was accepted and adopted and ordered printed as the report of the School Board to the City Council and to the Citizens of the City.

EVERETT A. PUGSLEY,

Secretary.

## Report of the Superintendent of Schools.

---

To the School Board and the Citizens of Rochester:

The following is offered as my fifth annual report, it being the twenty-third in the city series. I have again followed the plan of presenting the reports of the Principal of the High School and that of the Supervisor of Music. At the beginning of my report for the year.

---

### REPORT OF PRINCIPAL OF THE HIGH SCHOOL

Mr. Everett A. Pugsley, Superintendent of Schools:

I herewith submit the annual report of the High School. In the class of 1914, the following students were given diplomas:

Name	Present Occupation
Margaret Bartlett,	At home.
Myrtie Blake,	At home.
Marguerite Brodeur,	Emerson School of Oratory.
Florence Cook,	With N. E. Tel. & Tel. Co.
Mildred Dame,	At home.
Nellie Davis,	Gorham Normal School.
Marjorie Forbes,	Colonial School, Wash., D. C.
Eleanor Fownes,	Miss Wheelock's Kindergarten Training School.
Winnie Garland,	Plymouth Normal School.
Ruth McCallister,	At home. Enters Bates next year.
Bernice Mills,	At home.
Nellie Lowe,	Bridgewater Normal School.
Lottie Ricker,	Teaching, Nottingham, N. H.

Vira Shedd,	Begins work in Boston Hom- eopathic Hospital in Jan.
Alice Springfield,	Boston University.
Sara Wallace,	Mt. Ida.
Ellen Williams,	With Gonic Mfg. Co.
Richard Altheimer,	With S. S. Lightbody.
Tilford Babb,	Burdett Business College.
Clyde Bassett,	At American Cafe.
Lester Berry,	With W. H. Champlin.
Herbert Canfield,	Bates College.
Albert Connell,	At home.
Roy Emmond,	With W. H. Champlin.
Walter Gray,	With Courier Print.
Willis Hayes,	With N. B. Thayer & Co.
Chester Horne,	Postgraduate.
Howard Hurd,	With W. H. Champlin.
Wilfred Jacques,	Cushing Academy.
Romeo Larose,	With Leopold Larose, Builder.
Leon McCombe,	With Feineman Bros.
Philip Morrison,	Rochester Steam Laundry.
Clifford Mortimer,	In B. & M. freight office.
Irving Nute,	With W. H. Champlin.
Vaughn Parsons,	At home.
Stanley Pinkham,	New Hampton Literary Insti- tute.
Verne Preston,	New Hampton Literary Insti- tute.
Roy Shaw,	At home.

Miss Beatrice Page, who took postgraduate work with us through the year, entered Wellesley College this fall.

The total enrollment for the present year is 296, divided as follows: 1 postgraduate; 53 in the senior class, 51 in the junior class; 76 in the sophomore class;

and 115 in the freshman class. Of this number, one has died and 7 have left school, leaving the present membership 288, as compared with 263 last year and with 228 in 1912.

The teaching force has changed materially during the past year. Four of our faculty, Miss Springfield, Miss Foss, Miss Wilson and Mr. Martin, resigned last June; and the rapid growth of the school made it also necessary to increase the number of teachers. In these positions, we now have Mr. King and Miss Hammett in the Commercial branches; Miss Taylor, Latin; Miss Knowles, German and History; and Miss Babbitt, English. While the loss of efficient instructors is always to be regretted, the Board is to be congratulated on its choice of candidates; for the present corps of teachers is well qualified both by preparation and by experience. They are hardworking and efficient, and have been loyal to the school administration, and harmonious in co-operation with each other.

Some steps of progress have been made in the school organization. We have tried the plan of two recesses of five and ten minutes respectively, in place of the one recess of fifteen minutes; and the change has added greatly to the efficiency of the school. We have given up chapel exercises two mornings a week in order to devote more time to penmanship. We still lack sufficient time to give to this important subject, but plans have been formulated for a much greater extension of the work. A standard class pin has been adopted by the classes of '17 and '18 with the idea that future classes will fall in line and that we shall have no further question, from year to year, as to the design of the pin. The afternoon class for extra work has been systematized and made to stand for more than it has hitherto. All the teachers have been very willing

to give one afternoon each week, aside from that devoted to the regular teacher's meeting; and with the slip system in use this important work has been well covered. Athletics have remained in the hands of the teacher manager with excellent results. Debating is to be attempted this year, with the hope that eventually it may hold a recognized position among the school activities. The entertainment courses have been again successfully managed by the school. From the 1913-14 course about \$90 was realized; and, while the present course, owing to the general conditions of business, will not net as much, yet it will leave some \$40 or \$50 in the treasury. Through this fund, dictionaries have been placed in all of the high school rooms, certain other reference books have been purchased, a permanent curtain has been provided for the stage of the assembly hall, and a suitable cable for operating the school lantern has been procured.

The school has twice been saddened by the death of some of its most promising members. Two members of the class of 1915, Miss Leona Blaisdell and Miss Helen Andrews, lost their lives in the railroad accident at North Rochester. Each of these young ladies had won a large place for herself in the school both on account of her high scholarship and on account of her strong character and her agreeable disposition. This year, Miss Ellen Dinsmore likewise met her death through accident. Miss Dinsmore had been in school only a few weeks, but had already shown herself a conscientious and faithful student.

The Springfield scholarship, made available for use last year, is serving its purpose admirably. A scholarship of such generous size and of such broad service is so rarely at the disposal of a public high school that Mrs. Springfield's bequest is all the more appreciated.

For the past two years this scholarship has been held by Miss Eva Calef, Boston University 1917.

Mention should also be made of the able and efficient work done by Mr. Dame in keeping the building clean, warm, and properly ventilated. His work has consistently been of the very best throughout the year.

For the future, there are several lines along which the work of the school may be improved. One of our handicaps is that our school has grown out of its present course of study. An expansion of over twenty-five per cent. in the high school membership in two years, while the city has gained but little, must mean that the school is reaching a far greater part of our people than ever before and that studies which might, and probably would have been out of place under former conditions, may now meet very real needs. On the other hand, I realize that lack of funds have prevented and do prevent as definite action as I would otherwise recommend. The retiring Board has already attacked this problem by the appointment of a committee to investigate our present course; and I sincerely hope that this committee may be continued and that its report may be the basis of future action.

A second great need of the school has also been recognized and partially corrected by the Board. In my last report, I called attention to my fear that the overcrowded condition of the grades would result in the promotion of pupils inadequately prepared to do high school work. Conditions this year thoroughly substantiate my statement. Our present freshman class is not, as a whole, nearly as well prepared as have been those of the preceeding years; and the deficiency is almost entirely just where it is to be expected—among the less capable students. Pupils of above average ability can and generally do perform their work

creditably without great demand for extra help on the part of the teacher, but there always are many others less fortunate who need much extra assistance. While I personally know how earnestly and efficiently many of our grade teachers have endeavored to meet this situation, it needs no argument to show that it is impossible for a teacher in charge of fifty or more pupils to give each the individual attention that is so essential. Those in our freshman class who are naturally good students have been fully up to our requirements; but the weaker pupils are, in too many cases, below a proper high school standard. We have many needs, some of them pressing needs, at the high school; but in building for the future, I honestly believe that more teachers for the grades will be the best and most economical means of increasing the efficiency of the high school, in that it will vastly better the preparation of our entering classes.

Tardiness continues a very real problem in our school. With an increasing attendance of pupils from the outlying districts, a certain amount of this seems unavoidable; but existing conditions can be greatly remedied if the parents will co-operate with the school authorities in securing more punctual attendance. "Work at home" or "errands" to be done in the brief time before eight o'clock are too frequently genuine reasons for a five or ten minute tardiness.

In the school as at present organized, there are only 310 seats, so that, in all probability, another year will find the high school building occupied solely by the high school proper, as it seems reasonable to expect that we shall increase our enrollment at least 20. Many of our classes are really too large at present and should be divided as soon as conditions permit, particularly in the English and the French courses.

More typewriters should be installed, so that the present commercial teaching force could instruct all typewriting pupils instead of permitting pupils to practice without direction, on account of the limited number of machines. It is better economy to carry on typewriting in classes of fifteen to twenty pupils than to attempt to provide teachers enough to instruct the same number of pupils in divisions of nine or ten, as the entire cost of the six or more extra machines would fall far short of a single year's salary of an instructor. In the science room a rearrangement of seats and the installation of an instructor's desk has been already provided for.

The text book situation is much better than before, and the development of present plans will apparently meet our needs quite adequately. The public library, by its very efficient co-operation with the school, is not only doing a splendid public service, but is also saving the school yearly a large expense for reference works to which we now have ready access through the painstaking efforts of the librarian and her assistants. As long as the present conditions exist, our school library need include only the most common and necessary reference books.

Permit me in closing to express my appreciation of the friendly and cordial relations which have existed between us and to thank the Board for its friendly co-operation.

Respectfully submitted,

GILMAN H. CAMPBELL,

Principal.

## REPORT OF SUPERVISOR OF MUSIC.

To the Superintendent of Schools:

Sir:—I have the honor and the pleasure of submitting my report of the music in our schools for the past year.

I find the work in the grammar schools improving each month and speak with pleasure of the progress made by the children. The kindness of the School Board in granting my request for charts and books for the first four grades, is greatly appreciated by me and I feel that we have been very successful in the use of this material. The interest in the schools in music is very gratifying and both teachers and pupils look forward to the music period with pleasure and enthusiasm.

The work in the High School has gone on most successfully. We have a goodly number in the chorus and we are attempting musical numbers of great merit. Our one wish is that every boy and girl entering the High School would join us but at present this is not possible as other lessons conflict. We do appreciate however the earnest work of those in the chorus.

I feel that a word should be spoken of the work done by the graduates of the Grammar schools. In East Rochester at graduation the graduates, assisted by the school children sang "The Flower Queen," doing two and three part chorus work, solo and duet numbers in a most commendable manner, and may we be allowed to say that one of the most pleasing solos of the evening was sung by Edith Blaisdell, one of our girls who met such an untimely death this past summer.

On the evening of June 19th all our graduates united in a concert given at the City Opera House and

sang in a most satisfactory manner the cantata, "The Fairies' Festival." I am sure the people of Rochester had every reason to feel proud of their girls and boys on this occasion and we all felt proud of the fact that it was the first public appearance of our school boys and girls and felt that perhaps in some small measure we were showing our appreciation of the privilege we enjoyed in being given the opportunity of studying the greatest of the arts, music.

In closing I desire to thank you, Mr. Pugsley, most sincerely for the many kind words spoken to me, and for your hearty co-operation. Also I want to thank the teachers with whom I am working. They have given me able assistance in my work, and their good will and kindly support has made my work in the schools a very great pleasure to me.

Respectfully,

MOLLY C. DONOHUE.

---

## OBSERVATIONS OF THE SUPERINTENDENT

At the outset of what is here presented it may be safely said that the schools have served the city as well as ever during the year just closed. They have not only developed the mental ability and character of the children attending them but they have through the development of mental strength and better morals given such training and basal preparation as will enable those who have been educated in them to pursue their chosen occupations and professions with an ever increasing usefulness and effectiveness, and to become intelligent,

self supporting and happy citizens. And this should be the aim and the end of any and every educational system it would seem.

This opening statement is based not wholly upon the tabulated results of attendance, promotions, and scholarships, valuable as these things may be as a basis of judgment, but in a large measure upon the success of those who seeking, finding, and occupying positions have gone out from the schools from year to year and, so to speak, have made good.

### Education

It has long been believed by nearly all the people of our country, if not all of them, that in education or, more properly speaking, education by way of the schools or schooling, lies the safety, hope and prosperity, not only of the individual but also of the state and nation in which we live. And at the present time, all this is claimed for what is termed education. On every hand, one hears it said, educate, educate, educate, for in the thorough training of the mind and the physical powers lies that which promotes the usefulness of every individual and greatly enlarges the field of opportunity to him who possesses it; and furthermore the statement runs from lip to lip that an educated public is bound to succeed in about all its undertakings. In consequence of all this, schools have been and still are multiplying on every hand and vast and vaster sums of money have been and are being devoted to educational matters until in many municipalities the cost of the schools requires all of a third of all the revenues and in some a full half.

Now what is said concerning education and claimed for it, is without doubt, largely true and yet it may be well worth while to observe well as to what is going

on in the world at the present time and to take account of the conditions of life therein in order that we may better understand just what part education is playing in the affairs of life to day and discover, if we may, some way in which to render it more of a force for good, if all things said of it are true, or find out wherein it is deficient and apply a remedy provided they are not.

If any one deeply interested in the matter undertakes a serious consideration of social, moral, religious or any other conditions in his environment he is struck with certain facts that present themselves very forcibly to his mind.

If an examination is made concerning the matter of earning a living, it is found that while one educated man is earning enough to support himself and family another is not doing so. If attention is given to the business world, it is discovered that one man of refined mind is succeeding and that another of equal training is falling behind. If the field of finance is given consideration one man of trained intellect is found at the head of affairs in some great institution, who is ever standing for honest accumulation, willing to have and let have, while another is revealed as one who would wreck a bank or a railroad and reduce many a well-to-do person to poverty in order that he may secure large gains to himself. If a view is taken of the political field, one man of great intellectual attainment is found who is ever active to secure just legislation and another who is ever arrayed with those who favor the few at the expense of the many. If a study is made of moral conditions one man of much culture and refinement is found who is a leader in all that goes to make society better and another of like culture comes to light as a libertine, who hesitates not to live the immoral life or

to ruin the home and disrupt the family of another. If a survey is taken of the field of diplomacy, one man with a highly disciplined mind comes to view who advocates peace and the settlement of difficulties by arbitration while another of equal mental discipline, appears who fomented discord and calls for war to the knife. If note is taken of the best educated nations of the present day they are found at one another's throat engaged in a destruction of life and property that causes humanity to shudder. More than all this, upon investigation it is found that about as many men with little or no schooling have made their way in the world successfully as have done so with the help of a disciplined mind at the start. It seems very plain then, much as one may dislike to admit it, that education does not absolutely determine just what is to be or not to be. No. While education is of great value and assistance in about all that we may do, it is not a panacea for all our personal, municipal, or national ills; and it was never designed to be such. It cannot take the place of the honest heart or the willing hand, of the brilliant intellect or of energetic action. It cannot be handed out in equal amounts to each individual and it does not affect each individual in the same way, nor possibly always for his own good.

There is a growing tendency, quite well known, to throw more and more of the bringing up of the child upon the school and yet to require that the length of the school sessions and of the school year be of short duration. We ever need to be sane and sensible in what is asked of the schools, certainly all things cannot be done in a limited period of time. We shall probably never have schools continuing all the year round and so the school cannot assume the entire care and instruction of the child. The home and the parent still have

much to do and always will in the rearing of the child. We are largely at fault in our conceptions as to education and training. One is being trained or educated nearly every minute of his childhood and of his manhood save when he is asleep. The conditions of life are ever disciplining him. What training one receives in the school is but a beginning, a mere foundation for future acquirement, and should be so considered.

It is the business of the educator then to recognize all the facts connected with the proper instruction of the child and to so organize his school and so study the characteristics of his pupil and so deal with him that the most may be made of him. When this has been done the teacher has performed his duty, the school has best served its purposes, and the municipality has fulfilled its obligations to the child.

### School Accommodations.

Our school accommodations this year have been the same as those of last year and for the present and also for some time to come they are sufficient or can be made so with a few changes. There have been taken for use, however, during the year the vacant room at the School street building, one of the vacant rooms at the Allen building, and a small room at the Gonic building, this small room at Gonic never having been counted as one of our vacant school rooms. This leaves the city with three extra rooms out of the five reported last year. One of these rooms is at East Rochester and the other two are at the Allen building. There are also two or three small rooms at the Gonic building aside from the one mentioned which can be used for small schools in case of necessity, and by building a new entrance, a room can be gained at Maple street.

The taking of the rooms mentioned for use has been due to the growth of the High school and to the increase in the number of schools in the grades.

From the fact that one of the vacant rooms at the Allen building has had to be taken for a school this year and that in all probability another will have to be taken in the near future. It is here recommended that the renovation of the Allen building in some degree should be taken into consideration. A beginning should be made the coming summer by putting three rooms on the upper floor into two thereby providing properly for the seventh grade, already moved from the High school building to the Allen building and for the eighth grade now at the High school building.

The entrance doors should also be cut down considerably and larger windows should be put in over them thereby lighting the halls much better than is now done. With a few changes like these the Allen building can be made as thoroughly modern as any building that we have. During the present year the seventh grade at the Allen building has been working under some serious disadvantages in consequence of the room where it has been located not being of modern arrangement. Before opening schools next September this school should be furnished with a more suitable room.

In considering the matter of school accommodation I cannot help again calling attention to the two rooms at the School street building that need to be better warmed and ventilated. It is hoped that at no distant date a hot air shaft and a ventilating flue may be installed that will put these two rooms on an equality with the other rooms of the building.

At the Gonic building, since it appears that we must hereafter run the fifth grade and the sixth grade

as separate schools, it seems to be best to make two of the small rooms into one for the accommodation of the entire fifth grade and it is here recommended that this be done at the next summer vacation. It can be very readily done by removing a short partition.

As soon as it can well be done new desks should be provided for a room at School street and also for the seventh grade at the Allen building.

### Schools

In the annual report of last year it was stated that every school except the High school, above the fourth grade in the main part of the city, was a fifty pupil school and that something should be done to relieve this congestion. At the opening of the school year in September there was a considerable increase in some of the grades as well as in the High school. In consequence it was found necessary to separate the seventh and eighth grades at School street and also to make a division of the fifth and sixth grades at Gonic, there being sixty-eight pupils in these last named grades. These changes have caused the setting up of two new schools. The city, therefore, now has thirty-three schools in operation instead of the thirty-one of last year.

During the year now closing the schools have been made up much the same as in previous years. Since September the city has had twenty-four schools of single grade, seven of double grade and one of all grades. Three of the double grade schools are at East Rochester, three at Gonic, and one in the central part of the city.

There has been but two changes in the location of the schools during the year. In September it was found

that the High school must have more room, in consequence of this the seventh grade located in the High school building was placed in the Allen building in the fourth grade room and the fourth grade was given a room on the second floor, this arrangement being the best that could then be made.

The changes made at School street and at Gonic have been of great advantage to the schools affected, but the placing of the seventh grade in a room not suited to it in the Allen building has not benefitted that school. However with a better fitted room—and this can be had, all will be well with this school at the Allen building.

It would seem that the quality of the schools can be judged in no better way than by the product which they turn out, though there is a marked tendency these days to measure the efficiency of schools by considering simply the methods employed in handling pupils and subjects. The elementary schools of Rochester, judged by what the pupils educated in them can do, occupy a place well up in the scale when compared with those of other places. Pupils going out from the Rochester schools to places of employment certainly have shown good ability to get along in the world, so to speak, and those who go on from the grades to the High school succeed as well in the High school as do pupils going forward to High school work elsewhere. The following figures from the state report go to show this. By the state report, in Rochester last June 64 per cent. of the pupils who entered the High school four years ago completed this High school work and graduated from the school, in Keene 66 per cent., in Dover 63 per cent., in Manchester 62 per cent., in Somersworth 61 per cent., in Nashua 59 per cent., in Laconia 56 per cent., in Berlin 51 per cent., in Concord 48 per cent., in

Portsmouth 43 per cent., and in Franklin 34 per cent. From these figures it is seen that Rochester is surpassed by but one city in the state in the percentage of graduates from the High school based on the number in the class at the time of entering the school. Of course there are other things that may affect these percentages aside from the preparation received in the graduates but about as many of these are found in one school as in another and so these figures may be taken as a fair basis of comparison. In addition to these figures referring in a way to the elementary schools as well as to the High school, there are some things referring to the High school alone that may be said. At the present time there are twenty-five of the graduates of the Rochester High school in the different colleges, seven in the normal schools, six in different business colleges and two on the waiting lists of colleges, saying nothing of the graduates in the offices of the business houses and professional men of this and other cities. All this it seems is a showing that answers well the question as to the quality of the schools of the city.

### Teachers

During the year the teaching force has undergone several changes. Early in the year Miss Bessie Little gave up her position in the second grade at the Allen building and Miss Lillian Foss and Miss Bessie Allen resigned at the close of school work in June. Each of these teachers gave up her place to become the head of a home. In the High school Miss Springfield, Miss Wilson, Miss Nancy Foss and Mr. Martin left us at the end of the school year; Miss Springfield to take up post-graduate work at college, Miss Foss to be married, and Miss Wilson and Mr. Martin to take other posi-

tions. The places thus vacated were filled before the opening of the schools in September by a choice of the teachers hereinafter named. Miss Edith P. Foss of Strafford was secured to fill the place of Miss Little, Miss Lyda M. Lattie of Portland, Me., was chosen as principal at East Rochester, and Miss Alice M. Corson of our own city was given the place of Miss Bessie Allen in the first grade at School street. In the High school Miss A. Carmen Taylor of Kennebunk, Me., was chosen as teacher of Latin taking over the Latin of Miss Springfield and that of Miss Townsend. Miss Cynthia L. Knowles of Corinna, Me., was selected as teacher of German in place of Miss Springfield and History in place of Miss Wilson. Mr. John R. King of Providence, R. I., was elected to take up the Commercial branches taught by Mr. Martin, and Miss Eunice L. Hammett of Somerville, Mass., was given the place of Miss Nancy Foss as teacher of Stenography and Typewriting. In addition to the teaching force in the High school in consequence of the growth of this school another teacher, Miss Ina F. Babbitt, was secured to take up the English from Miss Wilson and some other work which would otherwise have fallen to the lot of Mrs. Allen. All of the teachers thus secured are school people of experience and come to us with high recommendations. They have taken up the work assigned them with earnestness and enthusiasm and are working faithfully and intelligently and are succeeding well.

What has been said as to the earnestness, enthusiasm, faithfulness and so on of the new teachers may also be said of the old. We may feel assured then that our city still has a corps of instructors in its schools serving us all as loyally for the smaller salaries paid as any body of teachers are doing in any other city of the same or even much larger size.

In securing the new teachers in the High school attention was given to the matter of department instructors and the good effects of so doing are already apparent.

Some of what has been said with reference to teachers has already been said in substance in the report of the High School Principal, but whatever has been said before will bear repetition here.

### Salaries

We have the salary problem ever present with us in hiring teachers. By reason of the higher cost of living to live upon his or her income from teaching alone is now a serious matter. Often some other employment during vacations is necessary in order to gain the wherewithal to meet the necessary expenses of life. Our scale of salaries was adopted some years ago and it may be necessary to rearrange this at no distant date. I believe it to be the desire of our city that the salaries of its teachers be as liberal as possible. We have paid \$1,133.11 more in salaries this year than last but not all of this is a gain for the teachers, some of it represents the salaries of the extra teachers employed since last September but, be that as it may, the fact that there is more going for salaries is a comfort to those who are doing the teaching.

## Financial Statement

O'er the Waters Gliding,	High School Chorus
Address, American Ideals,	Prof. Marshall L. Perrin
Selection,	Orchestra
Valedictory,	Ruth McCallister
Song of Spring,	High School Chorus
Awarding of Prizes	
Presentation of Diplomas,	Mayor Frank B. Preston
Class Ode,	Class
Benediction,	Rev. Joseph Simpson

## CLASS ODE

By Vira Mildred Shedd

Our high school days are over  
 Each must go his separate way  
 But however far we've parted  
 May our friendship last each day.

Happy days we've spent together  
 In these few short years  
 Recollections we shall cherish  
 That our friendship e'er endears.

Now once more we've come together  
 But alas! To say Farewell  
 To our teachers, friends and schoolmates  
 Who long in our thoughts will dwell.

Now let "Vincit qui partitur"  
 Guide us through our life.  
 May its teachings ever help us  
 Through the years of work and strife.

## Class Officers

President, Richard Milton Altheimer  
 Vice President, Philip Wingate Morrison  
 Secretary and Treasurer, Alice Springfield

## Class Honors

Valedictorian, Ruth McCallister  
 Salutatorian, Richard Milton Altheimer  
 English, Four Years, Ruth McCallister  
 Latin, Four Years, Ruth McCallister

French, Three Years, Ruth McCallister  
 German, Two Years, Ruth McCallister  
 Stenography, Two Years, Ellen Hannah Williams  
 History, One Year, Ruth McCallister  
 Mathematics, One Year, Sara Josephine Wallace  
 Chemistry, One Year, Alice Springfield

## GRADUATES

### Classical Course

Mildred Edwina Dame,	Nellie Edith Elizabeth Davis
Marjorie Coffin Forbes,	Ruth McCallister,
Bernice White Mills,	Lottie Claire Ricker,
Alice Springfield,	Sara Josephine Wallace,
Richard Milton Altheimer,	Herbert William Canfield,
Chester Arthur Horne	

### English Course

Margaret Farrin'n Bartlett,	Myrtie May Blake,
Marguerite Eug'e Brodeur,	Florence Estella Cook,
Eleanor Katherine Fownes,	Vira Mildred Shedd,
Franklin Clyde Bassett,	Lester Raymond Berry,
Albert Patrick Connell,	Walter Benson Gray,
Willis Llewellyn Hayes,	Howard Dodge Hurd,
Wilfred Joseph Jacques,	Leon Samuel McCombe,
Philip Wingate Morrison,	John Vaughn Parsons,
Stanley Hough Pinkham,	Verne Freeman Preston,
Roy Shaw	

### Commercial Course

Winnifred Blanche Garland,	Nellie Jeannette Lowe,
Ellen Hannah Williams,	Tilford Frank Babb,
Robert Henry Emmond,	Roméo Isidor Larose,
Albert Clifford Mortimer,	Irving Franklin Nute

## GRAMMAR SCHOOL GRADUATES, 1914

## Wakefield Street, Eighth Grade

Gladys Maude Andrews,	Everett Wentworth Babb,
Marie Felice Baril,	Palma Beaudoin,
Raymond Holmes Boyle,	Hazel Estelle Canney,
Vera LeRoy Canney,	Guy Kenneth Chesley,
Norman Carlton Dame,	Dorothea Davis,
Doris Cheever Dennett,	Ellen Ida Dinsmore,
James Hervey Edgerly,	Esther Witherbee Edgerly,
Werner Eschmann,	Robert Charles Flanders,
Lottie Marion Goodwin,	Arthur Grenier,
Arvin Gunnison,	Freeman Johnson Hanscom,
Mary Arline Hanscom,	John Wolcott Holton,
Tessie Emma Hooper,	Esther Julia Hurd,
Marie Regina Larochelle,	Mary Charlotte Leighton,
Clara Viola Little,	John Israel Loignon,
Katherine Robie Lougee,	Arthur Raymond Marble,
Ruby Estelle Masury,	Winslow Ricker McCallister
Douglass Frederick Miller,	Eugenia Alice Morrill,
Joseph Atkins Morrison,	Beula Nancie Morrison
Charles Stone O'Neil,	Hormidas Joseph Nadeau,
Warren Clough Parsons,	Roy Edward Page,
Margaret Butler Salinger,	Vivian Lillian Reynolds,
Ardys Lura Shaw,	Morrill Joseph Sanborn,
Minnie Rebecca Tanner,	Donald Adams Sweet,
Eben Mathew Tompson,	Lola Irene Thompson,
Berthena Miller Winkley.	

## School Street, Eighth Grade

Josephine Theresa Brennan,	Lillian Veronica Cavanaugh
Beatrice Augusta Coffin,	Doris Varney Coffin,
Mary Kathleen Danahy,	Vivian Hilda Grant,
Mona Olive Grant,	Beulah Irene Guilford,

John Joseph Haley,	George E. Hayes,
Ruth Mildred Hiscock,	Willis James Horne,
Frank Jones,	Francis James McDonald,
Mildred Elaine Mathews,	Agnes Elizabeth Rogers,
Alice Blanche Rogers,	Marion Worthing Spiers,
George Clifford McClelland Rollins,	
	Edward Frederick Frank Rumazza
	Lilla Belle Wallingford,

Gonic, Eighth Grade.

Luciene Cartier,	Ethelyn Frances Gray,
Alphonse Joseph Hamel,	Grace Marie Hamel,
Gertrude Jenness,	Robert Daniel Marsh,
Rhona Ames McElwain,	Helena Vance McElwain,
Lois Julia Meader,	Edward William Newbury,
Alden Chesley Pearl,	Edna Alberta Perreault,
Ernest Henry Stevenson,	Marion Etta Whipple,
	Mildred Edna Whipple.

East Rochester, Eighth Grade

Katherine Townsend Bates,	Fred'k Sherman Bickford,
Everett Shorey Bickford,	Charles Warren Birch,
Florence J'phn'e Blackmar,	Edith Pearl Blaisdell,
Sidney Wingate Corson,	William Garnett,
Alta Mae Garnett,	William Charles Harmon,
George Herries,	Mary Elizabeth Jones,
Helen Ethel Mills,	Clara Ella Mott,
	Mary Frances Witham.

In submitting this report I take the opportunity to thank the teachers for their fine co-operation and faithful labor in carrying forward the school work of the year, and to express to the members of the School Board and to all other citizens interested in the general welfare of the city my deep appreciation of their generous aid and support in helping to render more and more efficient the school system of our municipality.

Respectfully tendered,

EVERETT A. PUGSLEY,

Superintendent of Schools.
